Locum Medical or Surgical Retina Specialist

Position Summary

Retina Surgical Associates, a leading tertiary care medical and surgical retinal practice, is seeking a Medical or Surgical Retina Specialist for a 6-month locum position. This role offers the opportunity to work within one of the busiest retinal practices in British Columbia, managing a diverse and complex patient population while contributing to a collegial, high performing team environment.

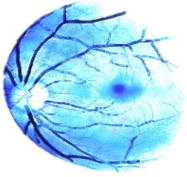

The successful candidate will join a high-volume retinal practice providing advanced care for a broad range of complex retinal pathologies. Although the position is primarily focused on medical retina, applicants with surgical retina training may have surgical locum privileges and participate in the on-call schedule rotation.

Responsibilities

- Assume care of a busy, high volume retinal practice involving the diagnosis and management of a wide variety of complex retinal conditions.
- Work across four clinics throughout the Fraser Valley, all fully equipped with state of the art diagnostic equipment and technology.
- Perform intravitreal injections, diode laser retinopexy, cryoretinopexy, and pneumatic retinopexy.
- Collaborate with five medical and surgical retinal specialists in a collegial and efficient group practice.
- Contribute to the teaching and supervision of vitreoretinal fellows affiliated with the University of British Columbia.
- Deliver high quality, patient centered care with professionalism and clinical excellence.

Qualifications

- One year fellowship training in Medical Retina or two-year fellowship training in Surgical Retina
- Certification in Ophthalmology (FRCSC) in good standing.
- Eligible for licensure with the College of Physicians and Surgeons of British Columbia (CPSBC).
- Experience in a high-volume retinal practice preferred.

About Retina Surgical Associates

Retina Surgical Associates is a tertiary care retinal group providing advanced medical and surgical care for patients with complex retinal diseases. Our team of five specialists works closely together across multiple sites in the Fraser Valley, supported by skilled technicians and administrative staff. We take pride in our collaborative, collegial environment—one that balances clinical excellence with approachability, teaching, and genuine teamwork. Locum physicians can expect a busy, well-organized practice with excellent support and the chance to work alongside experienced colleagues who are passionate about patient care and innovation in retinal medicine.
